***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-3 and 9, drawn to a method and apparatus of a hearing device that has a housing having a base part and a module for wireless signal transmission, classified in class 381, subclass 315.
  - II. Claims 4-8, drawn to an apparatus of a hearing device that has a housing having a base part and a plurality of modules stacked onto the base part, classified in class 381, subclass 314.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions Group I and Group II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention Group II has separate utility such as a plurality of modules are stacked onto a base part of a hearing housing device. See MPEP § 806.05(d).
3. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.
4. A telephone call was made to Aaron Fishman on 12/10/2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 2643

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to HUYEN D. LE whose telephone number is (703) 305-4844. The examiner can normally be reached on 9:30AM-6:00PM.
